

# INTRODUCING BIRDI BYRD

GET TO KNOW THE  
FRIENDLY FOLKS AT THE OAKS.

## BIRDI BYRD, MEDICAL TECHNICIAN

Birdi Byrd found her calling as a caregiver by a happy accident — she had always worked in restaurants so she applied to join the dining department at The Oaks at Flower Mound. Instead, she was brought in to serve in a caregiving role and instantly discovered a passion for it. **“Honestly, once I got into it I wondered why I hadn’t done something like this sooner. The residents and all of us really are like family.”**

Birdi’s can-do attitude makes her a vital part of the team at The Oaks and she’s happiest when taking care of residents. **“It’s the little things like bringing someone coffee before they go out in the morning or helping them put on their favorite lipstick.”**

Since coming to The Oaks in 2018, Birdi has exemplified cooperation and teamwork — and appreciates being surrounded by team members who do the same. **“We’ve really found that by working together, laughing, smiling and having fun with the residents, it doesn’t really even feel as much like work. It feels just like taking care of family.”**
