

INTRODUCING SHAMEKA LEE

GET TO KNOW THE FRIENDLY FOLKS AT THE OAKS.

SHAMEKA LEE, MEDICAL TECHNICIAN/CAREGIVER

Shameka Lee is best known around The Oaks at Flower Mound for her smiling face and cheerful disposition. After caring for her grandmother before she passed away, it comes naturally to Shameka to give residents the love and care of family. “The residents get very attached to us and it’s comforting to them to have the stability of staff members who’ve been here a long time. They like to see familiar faces and it’s very comforting, especially to the Memory Care residents.”

Shameka spends her days fulfilling her role as a Medical Technician and Caregiver in both Assisted Living and Memory Care; however, she’ll do whatever it takes to help residents with anything they need – and appreciates that so many of her teammates are just as dedicated.

Since coming to The Oaks in 2016, Shameka has seen the impact of the community’s steadfast commitment to its residents. “The staff and management here make it a very special place and we often have family members compliment us on how well we take care of our residents.”

Shameka’s grandmother always told her that caregiving was her calling and she has truly found that there’s no place she’d rather be. “We are here 24 hours a day/7 days a week with our residents, so we become very close. We love them and they definitely love us back.”
