

INTRODUCING KALISTA GIBSON

GET TO KNOW THE FRIENDLY FOLKS AT THE OAKS.

KALISTA GIBSON, DIRECTOR OF ENTERTAINMENT & PROGRAMS

In her role, Kalista takes pride in creating connections among residents — in addition to helping them have a lot of fun! She grew up being close to her grandparents and eventually was hired as a caregiver at a senior living community during college, a position that intimidated her at first. “I met a resident who reminded me a lot of my grandpa, and I loved going to work so much after that because I realized it was basically the same as hanging out with my grandparents.”

Affectionately known as “Red” around the community, Kalista draws inspiration from residents’ unique backgrounds, interests and hobbies as she designs a full slate of activities and outings — often coming up with new ideas based on residents’ feedback. “Every activity we do is an opportunity to learn more about each other and hear someone else’s story. The stories that you hear when engaging with this generation are unlike anything you can ever hear again.”

In addition to popular events including a pie tasting, chili cook-off and charcuterie board-making, Kalista implemented a Click & Connect program where residents can bring their phones and laptops for technology class. She appreciates the family environment at The Oaks at Flower Mound, which truly encourages lifelong connections between residents, families and team members. “When someone needs extra support, the whole community rallies and wraps their arms around them. Our longstanding staff is truly a reflection of the compassion that we all have here.”

We'd love to share more about our community —
